Total CEUs					12	

JASON CREAN, MS Bio, EdD: Biologist, instructor, zoo consultant and aviculturist specializing in avian nutrition and dietary enrichment. He takes great joy in educating people of all ages about the natural world.

ROBERT DAHLHAUSEN, DVM, MS: Practicing medicine for over 30 years, with a special interest in diagnostic methods & infectious diseases such as PDD. Founder of the Veterinary Molecular Diagnostics lab for exotics.

JENNY DRUMMEY: Technical write by profession; poet, painter, and amazing contributor to parrot welfare by passion. Author of two important books about parrot behavior and manages adoptions for Phoenix Landing in Virginia.

KEVEN FLAMMER, Diplomate, ABVP (Avian): Director and Professor of Avian Medicine at North Carolina State University, with a special interest in the pharmacology of antimicrobial drugs and control of infectious diseases in birds.

SHERON HAGELSTON: Creative person extraordinaire. Want a new idea for a toy, or how to assemble something intriguing to a parrot, ask Sheron! Provides admin support for several parrot welfare activities.

CHRIS JENKINS, CPBT-KA: Chief Operating Officer at Natural Encounters, Inc. (NEI). Oversees the animal training and show operations, including two free-flight bird shows at Disney's Animal Kingdom. Chris is an instructor for NEI's professional animal training workshops and helps head up the company's zoo behavior consulting work.

ROWAN MARTIN, PhD: Director of World Parrot Trust Africa Conservation Program and Research Associate of the Fitzpatrick Institute of African Ornithology at the University of Cape Town, with an interest in the evolution of mating systems, population ecology and the conservation of parrots.

MEGAN MUTCHLER, DVM: Current veterinary intern and soon-to-be resident in avian medicine for Dr. Susan Orosz at the Bird and Exotic Pet Wellness Center in Toledo, Ohio, fulfilling her long-time desire to practice exotic animal medicine.

SUSAN OROSZ, PhD, DVM, Dipl ABVP (Avian), Dipl ECZM (Avian): Over 30 years of exotic practice, and board certified in the U.S. and Europe. Specialties include anatomy, neuroanatomy, and more than can be listed here!

GIACOMO ROSSI, DVM, PhD, Dipl ECZM (WHP), ASSO. PROFESSOR: A European board certified veterinary specialist and professor at the University of Camerino, Italy. His work is on the cutting edge of research for many topics, to include PDD, immune diseases, cancer, and probiotics.

FRANK RUTOWSKI, DVM: Practicing for almost 30 years, owns the Animal Care Hospital of Matthews, NC, serves on the Phoenix Landing Board, has a particular passion for wildlife, and leads eco-tours to Central and South America.

SCOTT STAHL, DVM, ABVP-AVIAN: Owns the Stahl Exotic Animal Veterinary Services (SEAVS) in Fairfax, VA, a clinic and certified training facility for avian residency. Special interests include endoscopy, ultrasound, and reproductive medicine and surgery. He has served on the Phoenix Landing Board since 2004.
